IN CAB INDEXES:

1. Select citations to import into RefWorks by clicking on the check-box next to each citation.
2. At the bottom of the citation display, keep the drop-down menu at the far right at RefWorks. Click on the **Export** button.
3. Your citation(s) will be imported into the **Last Imported Folder**. You may now move them into the folder of your choice.

***Note:** CAB Direct databases are enabled for Direct Export. If the Direct Export feature is not functional then you can use the Import from a Text File method. For instructions on how to do this with a wide variety of database vendors, go to: <http://www.refworks.com/Refworks/help/Refworks.htm#>. Click on the **Building Your Database** icon, select **Importing from a Text File**
